TO: Lower Brazos Regional Flood Planning Group

RE: Technical Memorandum #1 Deliverable

To the Lower Brazos Regional Flood Planning Group,

The Texas Water Development Board (TWDB) requires each of the Regional Flood Planning Groups (RFPG) to submit a draft Technical Memo (Task 4C) to summarize the efforts completed by each group to date. The Technical Memorandum must be approved by the RFPG and submitted to the TWDB on or before January 7, 2022. Per TWDB guidelines, this Technical Memorandum includes the following:

- Identification of existing political subdivisions with flood-related authority/responsibility (Task 4C.1.a);
- Previous flood studies and models considered relevant for the plan (Tasks 4C.1.b and 4C.1.f);
- Adopted flood mitigation and floodplain management goals (Task 4C.1.g);
- Process used to identify potentially feasible FMSs and FMPs (Task 4C.1.h);
- List of potential FMEs and potentially feasible FMSs and FMPs (Task 4C.1.i);
- List of infeasible FMSs and FMPs with reason of exclusion (Task 4C.1.j); and
- Associated geospatial database

Please review the attached Technical Memorandum #1 in advance of the Region 8 monthly meeting on **Tuesday, December 14, 2021**. The technical consultant will be prepared to discuss any comments and the committee will approve the draft memorandum for submittal to the TWDB on January 7, 2022.

In addition, a draft version of Chapter 1: Planning Region Description has been submitted to the RFPG. Please review and provide comments on or before the January monthly meeting. A review of this document is not expected from the RFPG by the December monthly meeting.

If you have any comments on these recommendations and the attached supporting draft document, please contact Pam Hannemann with the Brazos River Authority at (254) 761-3135 or pamela.hannemann@brazos.org.

Sincerely,

Sam Hinojosa, PE, CFM
